

Davide Fabiani received the M.Sc. and Ph.D. in Electrical Engineering with honours in 1997 and 2002, respectively. He is Associate Professor at the Department of Electrical Electronic and Information Engineering of University of Bologna. His fields of research are mainly related to development, characterization and diagnosis of electrical materials for applications in energy and electronic apparatus. He is author or co-author of about 250 papers, most of them published on the major international journals and conference proceedings. He is Associate Editor of IET High Voltage Journal. He is Senior Member of IEEE, Vice-President (Administration) of IEEE Dielectrics and Electrical Insulation Society (DEIS) from 2022, formerly VP Technical (2020-2021) and AdCom member since 2016.
