View Reviews

Paper ID 30
Paper Title The Influence of TCSC Devices on Distance Protection Tripping Characteristic

Reviewer #1

Questions

1. Appropriateness to the Conference:

Acceptable

2. Originality:

Acceptable

3. Title and Abstract clearly communicate scope and outcome

Good

4. Crucial previous work is described and referenced, with clear research scope and objective

Average

5. Methodology and data are appropriate for research scope and related to findings

Good

6. Results are properly described, visualized and discussed

Excellent

7. Easiness of reading, including language, with sufficient length for the topic studied

Acceptable

8. Presentation / Editorial Quality: Is the paper following the IEEE template instructions?

Yes

9. What are the Strengths and Weaknesses ? Highlight contributions and problems that should be corrected.

The paper presents an assessment of the influence that thyristor-controlled series compensator can have on the tripping characteristics of distance protection relays. Different scenarios have been considered and analyzed for a 110 kV transmission network consisting of two transmission lines, located between three stations.

The authors are encouraged to highlight the fact that the results are obtained from measurements performed on existing an existing network.

The abstract should include short information regarding the performed analyses and the obtained results, instead of a general presentation of the TCSC devices.

Please make sure all the template requirements are fulfilled: spacing, table and figures alignments, spaces before and after paragraph etc. It is recommended that the figures are placed in the upper or lower side of the columns and should be previously cited in text (caption for Fig. 2 is after the figure).

The authors name should not be listed in columns nor group by affiliation – see section IV.A of the template (<https://www.ieee.org/conferences/publishing/templates.html>);

There is a large number of images. The authors are encouraged to reduce their number or to collate them.

It is recommended to reduce the length of the paper to a maximum of 6.

12. Overall Rating:

Accept

After consulting the reviewers recommendation Click on "Go back"

Click on "here" to Complete the online IEEE Copyright form

Submit IEEE Copyrigh Form :

The screenshot shows a web browser window with the URL `ecopyright.ieee.org/ECTT/IntroPage.jsp`. The page title is "IEEE Publication Agreement" and it features a navigation bar with links to "IEEE.org", "IEEE Xplore Library", "IEEE Standards", and "IEEE Spectrum". A progress indicator at the top right shows five steps, with the first step highlighted in orange. The main content area is titled "Welcome" and contains the following text:

> The following steps will lead you through the process of either transferring copyright or licensing publishing rights to IEEE.

- STEP 1: Confirm article information.
- STEP 2: Confirm article originality and signing authority.
- STEP 3: Select the appropriate publishing agreement.
- STEP 4: Sign the publication agreement.
- STEP 5: Download the signed publication agreement.

On the right side of the page, there is a "Select Language" dropdown menu and a section titled "About signing this agreement" which contains the following text:

As corresponding author, or authorized agent, you will be signing on behalf of all your co-authors. Therefore, please be sure to confirm any changes with them.

This digital Publication Agreement uses a digital signature, which requires an author sign-in to use.

A red box highlights an orange "Start" button, with a blue arrow pointing to it from the text "Click on 'Start'" below the button.

At the bottom of the page, there is a footer with links for "Home", "Contact & Support", "Nondiscrimination Policy", and "Privacy & Opting Out of Cookies". Below the footer, it states: "© Copyright 2021 IEEE - All rights reserved. Use of this Web site signifies your agreement to the IEEE [Terms & Conditions](#)".

IEEE Policies on Plagiarism:

Article Title: [Redacted]

Authors: ALIN DRAGOMIR

Publication with IEEE is subject to the policies and procedures as described in the IEEE PSPB Operations Manual. Authors must ensure that their Work meets the requirements as stated in Section 8.2.1 of the *IEEE PSPB Operations Manual*, including provisions covering originality, authorship, author responsibilities and author misconduct.

I have read and agree to IEEE policies related to plagiarism and other forms of publishing misconduct.

Back Continue

About Plagiarism

IEEE defines plagiarism as the reuse of someone else's prior ideas, processes, results, or words without explicitly acknowledging the original author and source. It is important for all IEEE authors to recognize that plagiarism in any form, at any level, is unacceptable and is considered a serious breach of

About Similarity Check

IEEE takes the protection of intellectual property seriously. Accordingly, all submissions will be screened for plagiarism using Similarity Check. By submitting your work you agree to allow IEEE to screen your work. For more information please visit: <https://www.crossref.org/services/sim>

Employment status = copyright status

An author's copyright status is determined to a large extent by the type of employer for whom the author works. For example, if you are employed by the U.S. Government, and you are the sole author of your paper, then you should select "Employed by United States Government."

Similarly, if you are the sole author and you are employed by a Crown Government (or if you and all your coauthors are Crown Government employees), then copyright to your paper will remain with the Crown Government. You should select "Employed by a Crown Government."

Please select your employment status:

- Employed by a Crown Government
- Employed by the European Commission
- Employed by the United States Government
- None of the above
